PROSPECTUS OF A new Story on an old Subject.

THE AUTHOR, in presenting the to lowing work to the publicant not but test that he has an arcanats tack to perform in estering to the public tack, and has somewhat digressed from the established rules, and customs of an thors by taking up a subject which, if circludy persued, and the advice herein contained followed, the ambition of the author will be gratified to its utmost extent, and the object of this work will have been attained, viz: to put money in my pocket and to give to the careful and indulgent reader a literary treat through the agency of the digesture organs. It might perhaps be necessary to sinte, that the most of the manuscripts from which this tale was founded was taken from an old dress pocket found in a 2nd hand Clothing Store a few weeks since in New York by the author, and originally owned by the indefatigable Mas. Toopies, at once conveying to the mind of the reader that a barguin may be expected. Roping the kind and indulgent public will excuse my blunders and look with a patronicing eye upon my humble efforts to procure for indulgent public will excuse any blunders and look with a patronicing eye upon my humble efforts to procure for them 1st, o cleasts of Imperial and Black Tess, the finest ever brought to this market, and put up in such a shape that every one can see it for themselves. Still keeping in view that philanthropic principle which actuated me to purchase of the importers a choice selection of Mocha, Old Gor. Java and Bahimore Rio Coffees. I must not digress so far from my subject as to forget that I also isid in a bountial supply of Baker's Broma and French Chocolste, an excellent uneming drink for my nervous reader in these troublous political times. In compiling the forthcoming work I shall "dilute" pretty extensively on the mer'lls of "Ie Fly." The following extract taken from the "Bung" letown Francti will convey some idea of the attention paid to that valuable insect:

"We take great pleasure in announcing that a celebrated nuther from one of the Western States is now in our

ed asther from one of the Western States is now in our city collecting specimens for a forthcoming work, upon which he is engaged. We notice a large invoice of the genuine 'Hedsick Champayne' Together with a full assortment of choice Wines and Liquors, among which the justly celebrated Tehernay Brandy, all of which the liberal author intends to treat his many readers, to or as many of them who have the magnamity to pay for it. We wish the author success to his new work, which is to be called " Is Fly.

wish the author success to his new work, which is to be called "I' Fly."

As the author feels incompetent to proceed in that Flour'y style so common with writers of the present day, he begs to say that in its proper place in the work he will serve up 300 bags of that indespensable article in 25, 50 and 100 lb bags, thereby leaving it at the option of the readers to Flour to their own taste. For "fear" (and what author is without it) that this stopendous enterprise might end in "secole" the author has carefully laid in a large and choice collection of "Segars," which will give each reader an opportunity of sustaining the author by giving him a "put" and furthermore, in order to veryity the oldProverh of where there is so much smoke there must be some fire, the compiler of these valuable manuscripts has added a heavy stock of "Matches" As another digression, for which I beg pardon of all authors who "space" their concoctions with brilliant showers of wit and humor, I have employed a substitute, which I cannot but believe is of a more substantial nature, viz: a choice assortment of Natureys, Giager, Densamon, Coves, French, English and Entwelly Mustards, Allapiet, Proper, ground and unground, Cateurs of different varieties, Warestershire John Bull and Harrey Sames, and in the place of sweetening the many beautiful passages, which will occur from time to time with moralight rays, suphy brease, and the neclar sepid from the pure lips of innovance, I have employed the more powerful argument of Pewtered, Crushployed the more powerful argument of Powdered, Crushed, Loaf, Clarified and Granulated, and different degrees of Brown Sugare combined with the more liquid streams of Reloiled, Sugar House and Plantation Molasses, and of Rebuiled, Sugar House and Plantation Melanese, and the bright and flowing Golden Syrup. How beautiful, in-dulgent reader, does Pope or Guiliver (the author does not distinctly remember) express himself in the following

How doth the little busy Bea

And gather Housy.—I here beg leave to
say that in order more fully to carry out the objects of this
same work, I have provided myself with a large stock of

his natural state or "straight" to suit the taste of the no" is a too common error among an thors, which too very often places them in a position where they are compelled to make a "ranse" I have in order, if possible to avoid that unpleasant predicament, taken the precaution to provide a large supply of Preston & Merrill's Feast Powders, whose raising qualities my A Merrill's Feast Powders, whose raising qualities my numerous readers have probably formed some opinion. As a bright and shining "light" as I intend this work to be, I shall substitute the agency of Star, Adamantine, Sperm and Tollien Chadles, and to "cleanes" the mind of all impurities shall resort to Craile, Clein and Common Bar Scap, which together with Wash Bloords, Tube, Buckets, Brooms, and Scrad Beastes, I have procured an abundant supply. As it is a time honored custom with compliers of great works to first "poick the under standing" of their readers, I take pleasure in stating that I shall for this surpose bring into requisition a fall supply of "Block". this surpose bring into requisition a full supply of "Macking" and "Sice Brushes," and in order that the reader may more fully appreciate the sweet and choice selections above mentioned, I shall preface each chapter with a full description of different varieties of Fickles, Gross & Blackwell's Chos Chon and Ficcalli, Gerkin's prepared Here Radiel and pure Color Vinegar, for as a wise min once said, every sweet his its sour, or samething to that effect. As this work will, undoubtedly, fall in the hands of a great many highly educated persons, who will look for the more dignified or "stiff" portions of the work, I shall introduce a heavy stock of Carpatas & Four Pearl March, whose stiffening qualities none can say ought against, and another class of readers who are too cassiv guiled by a large class of "Mest'y" mouthed nuthors, and are never willing to acknowledge the "Corn," shall be amply supplied with extracts from a large Bin of Cora Med. Ryc Med, or unbotted Four. As the forthcoming work will be attended with coormous expense, owing to the sudden advance of Taxes (the cause of which has never been fally ascertained) the author is compelled to foreg

the publication until a certain amount of subscribers are obtained, (the amount of subscribers limited to 20,000, but specimens of the promised literary hash can be seen at his Studio, No. 50 Market street, every day, and full instructions given to those who will purchase the juggedients and tions given to those who will purchase the lagradients and are desirous of embarking upon that "Tempest tosed ocean," an author's life.

for the Complete Cure of Coughs, Colds

THIS preparation is getting into use all over our country. The numerous lotters we receive from our various agents, informing us of cures effected in their immediate neighborhoods, warrant us in saying it is one of the best, if not the very best Cough Medicine now before the public.—It almost invariably relieves and not unfrequently cares the very worst cases. V/bea all other Cough preparations have failed, this has relieved the patient, as Druggists, dealers in Medicines, and Physicians can testify. Ask the Agent in your nearest town, what has been his experience of the effects of this medicine. If he has been selling it for any length of time he will tell you it is the best medicine extant. Below we give a few extracts from letters we have received leastly regarding the virtues of this medicine.

Dr. S. S. Oslin, of Knoxville, Ga., says.—I have been using your layerwort and Tar very extensively in my practice for thrice years past, and, it is with pleasure I state my belief in its superiority over all other articles with which I

tice for three years past, and, it is with pleasure 1 state my belief in its superiority over all other articles with which 1 am acquainted, for which it is recommended.

Mesers, Fitzgerald & Brenners, writing from Wayneaville, M. C., says:—"The Liverwort and Tar is becoming daily more popular in this country, and we think justly so. All who have tried it speak in commendable terms of it, and any it is very benedica in alleviating the complaints or which it is recommended.

Our Agent in Pickens District, S. C., Mr. S. R. McPall, assures us that he uses liwith great benedi in his own family and recommends it to his nelshbors." He gives an instance it negro woman in his victuity, who had been suffering with disease of the Lungs for years, attended with sover crugh, who was relieved by the Liverwort and Tar! ugh, who was relieved by the Liverwort and Tar.

cith disease of the Lings for years, attended with sover crugh, who was relieved by the Liverwort and Tar.

Such are the good reports we hear of this Medicine from all parts of the South. For a report of the surprising cores this performed in the Western and Northern and Rastern States, we would invite the suffering patient to read the pamphlet which accompanies each bottle. To all we say, have ope, have hops!

Try the Medicined! Be warned in season!!! And neglect not that cough which is daily weakening your constitution, irritating your throat and lungs, and inviting on that dread-disease, Consumption, when so soothing and healing a romedy can be obtained as Kogers' Syrup of Liverwort and Tar.

Beware of Counterfeits and base imitations. The genuine attole is signed Andrew Rogers, on the engraved wrapper around each bottle.

THE ONLY INFALLIBLE RRMEDY

Hurley's Sarsavarilla. O fall the comedies that have been discovered during the present age for the "thomsand ills that fiesh is held to," none equal this wonderful preparation. Only three years have elapsed since the discoverer (who spent a decade in studying, experimentalizing and perfecting it) first introduced into the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy for cartain diseases of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to commund the sanction of the faculty, because, on boing tested, they have been found to contain noxious ingreadents, which neutralize the good effects of the sarsaparilla, and ottentimes injure the health of the patient. It is not so with fluritey's proparation.

This is the pure and genuine extract of the root; and will, on trial, be found to effects cartain and perfect cure of the following complaints and diseases:
